

A UNIQUE SOLUTION FOR AN INNOVATIVE MANUFACTURER

SEE HOW BLUFF ENGINEERED A CUSTOM RAMP TO KEEP THINGS MOVING!

CHALLENGE

A client in the automotive industry needed covered ramps to accommodate an outdoor component of their manufacturing process. There was nothing on the market to address their needs and they couldn't risk valuable downtime.

- Product they were unloading could not get wet
- Cover could not be anchored to ground per code

SOLUTION

Bluff stepped in with a custom engineered ramp that met their spec and exceeded their expectations. The result is a solution that helps them stay within city code and keeps production moving to meet high demand.

Need a custom solution for you or your client? Don't hesitate to reach out to us and experience award winning customer service with top shelf Made in USA manufacturing. We are more than ready to help!
